

EXPOSITION INTERNATIONALE D'ÉLECTRICITÉ

SOUS LE PATRONAGE DE L'ÉTAT

PARIS 1881

COMMISSARIAT GÉNÉRAL

Palais des Champs-Élysées

PORTE N° IV

Les bureaux sont ouverts
tous les jours non fériés
de 10 heures à 5 heures.

Le Commissaire Général
reçoit les Lundi,
Mercredi et Vendredi,
de 3 heures à 5 heures

Paris, le 30 Dec 1880

Dear sir

I shall feel greatly obliged to you
in telling me in what measure M.
Edison intends to show his electric
light in the next exhibition of Paris,
on the 1st August 1881.

The French people are very anxious
to see this light which is as celebrated
here as in the United States.

To give all advantages to inventors
the government and the Commission of
organisation have decided to open
the exhibition on all evenings.

The many systems shall contribute
to the general lighting of the large
hall, though each of them shall

be allowed to be shown in a
separate room or drawing-room.
I should thank you very much if
you could tell me nearly how
many burners of lamps m. Edison
intends to exhibit.

If he could also exhibit his electric
railway I think it should be a great
attraction - we have already the
Siemens system - and another one.

The american commission of the
exhibition is not yet elected, and
for this reason, I take the liberty
to adress to you these different
questions

An early reply shall oblige
yours faithfully

Antoine Breguet

4 rue Perrault - Paris

General manager of installation services
at the Exhibition.
